Thursday 18 March 2021
Science Project Officer
Braden Mitchell
braden.mitchell@riverhealth.org.au
(07) 4999 2835

For more information visit
www.riverhealth.org.au

(Please wear closed in shoes, bring a water bottle and a hat!)

Join us to celebrate [World Water Day](#) and take part in some fun activities! Sample a local waterway, check out local water bugs, take a selfie with Mindi the Barramundi and play our large Maisy the Mayfly board game!

This World Water Day we want to know, what does water mean to you? At Fitzroy Partnership for River Health, with the support of our partners, we assess and report on the health of waterways in the Fitzroy Basin, releasing a Fitzroy Basin Report Card each year. We also encourage local community members to take an interest in the health of our waterways and learn and understand about protecting our environment and conserving water.

Will you be a Fitzroy Basin Water Warrior and help us care for our waterways?
