Book online by Thu 19 August 2021

<https://www.trybooking.com/BSACF>

Inquiries: Nicole.Dendle@riverhealth.org.au

Please note: Virtual attendance not available.

You are invited to celebrate the launch of our 10th Ecosystem Health Index Report Card for the Fitzroy Basin and to share our region's water stewardship stories.

Join us for a short two-day water forum to hear the success stories of our partners and to learn about and discuss future directions for water quality management.

The program will bring together all levels of government, research, industry, reef and climate presenters.

With sincere thanks
