

2023 Water Management Forum *Emerald*

Thank you to all attendees, partners, presenters and guests.
The feedback we received was overwhelmingly positive and
we're looking forward to next year already!

The following presentations from the event are available by clicking on links below:

- **Stephen Lewis**, James Cook University: Land Use Changes 1860-2021
- **Shawn Darr**, Dept of Environment & Science: Paddock to Reef Program, Sediment Sources
- **Chris Cosgrove**, Sustenance Asia/sustainability consultant to Australian cotton industry: Balancing environmental, social & economic responsibility
- **Michael Hewson**, CQUniversity - Biodiversity, Climate Change & River Environmental Policy: Future Precipitation (as far as it's known)

With thanks to our valued partners
